Illinois River White Paper 01292018 R2.docx

Unfortunately, I heard last Friday that Becky Keogh (Director, Arkansas Department of Environmental Quality) told my Acting DRA that there were still problems with the model that should be worked out before letting other stakeholders review. The peculiar thing about such a statement is that it is totally at odds with statements made by her agency's reps on the technical workgroup. Anyway, I think our new RA is prepping to engage in a call among the Project Principals. She understands our interest in wrapping up our part of the work.
